## Why is the meat pink?

It's the result of cooking with wood in a closed pit. The smoke imparts a delicious aroma and flavor as well as a distinctive pink color. So please don't confuse the pinkness with undercooked or 'rare'. Our meats are slow cooked for hours until perfectly done. The pink you see is a sign of authentic BBQ!

\*Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions.
